

# *Tobias Tuxington's Pledge of Compassion and Action*

There are over 100,000 community cats living on Winnipeg's streets, and the population continues to grow.

If elected to Winnipeg City Council, I, \_\_\_\_\_, pledge to help the cats. I will support a comprehensive feline population control program to humanely control the feline population and prevent suffering.

Such a program would include, but is not limited to:

- adoption of trap, neuter, return as the preferred method of population control for Winnipeg's community cats
- implementation of an affordable and accessible spay/neuter program
